Summary

CSE graduate and cybersecurity enthusiast with hands-on experience in **Penetration Testing, SOC Monitoring, and Incident Response**. Skilled in **VAPT, SIEM, network defense, and ethical hacking** using tools like **Nmap, Burp Suite, Wireshark, Metasploit, and sqlmap**. Seeking roles as a **Cyber Security Analyst, SOC Analyst, or Security Engineer** to contribute to enterprise security operations.

Education

B.E. in Computer Science and Engineering (CSE)

St Joseph Engineering College, Mangalore

Aug 2021 – Jun 2025

CGPA: 7.34

Pre-University (Science)

St Norbert PU College, Chikmagalur

Jun 2019 – May 2021

81%

High School – CBSE

St Norbert School, Chikmagalur

Jun 2018 – May 2019

77%

Cybersecurity Training & Projects

Cyber Security Professional Training (Skillologic)

Jul 2025 – Present

- Practical experience in **Ethical Hacking, VAPT, Network Defense, and Incident Response**.
- Hands-on work with **Nmap, Burp Suite, Wireshark, Metasploit, and sqlmap**.
- Executed attack simulations, vulnerability remediation, and network hardening exercises.

Experience

Cyber Security Intern – EyeQ Dot Net Pvt Ltd

Feb 2025 – Jun 2025

- Monitored enterprise networks for threats like **ARP spoofing, brute force, DDoS attacks**.
- Performed vulnerability scans (**Nmap, Burp Suite**) and supported SOC operations.
- Analyzed logs to enhance detection efficiency and assist incident response.

Web Developer Intern – MotionCut

Oct 2023 – Nov 2023

- Developed responsive front-end interfaces using **HTML, CSS, JavaScript**.

Key Projects

LAN Intrusion Alert System

Python, PyShark

- Built an IDS to detect **ARP spoofing attacks** with 95% real-time accuracy.

Vulnerability Assessment using OpenVAS

OpenVAS, Windows 10

- Conducted scans to identify CVEs and misconfigurations, prepared remediation reports.

MAC Address Anonymization

Kali Linux, macchanger

- Spoofed MAC addresses to test device anonymity and bypass MAC-based access controls.

CrowdMint – Blockchain Crowdfunding Platform

Ethereum, Solidity, Web3.js

- Designed secure **Ethereum smart contracts** and integrated **MetaMask** for transparent transactions.
- Implemented balance mapping with transaction limits to ensure security and trust.

Fake Instagram Profile Detection System

Python, Machine Learning

- Developed an ML-based model to classify profiles as **Likely Fake, Warning, or Genuine** using activity metrics and follower ratios.

Skills

Cybersecurity: VAPT, SOC Monitoring, Threat Hunting, Incident Response, SIEM (Wazuh), DDoS Mitigation, ARP Spoofing Detection

Tools: Kali Linux, OpenVAS, Nmap, Burp Suite, Metasploit, Wireshark, sqlmap, Firewalls, IDS/IPS

Networking: TCP/IP, LAN/WAN, Cisco Routing & Switching

Programming: Python, HTML, CSS, JavaScript, React, Next.js

Blockchain: Ethereum, Smart Contracts, Web3.js

Database: MySQL

Certifications

- IIFIS Cyber Security Professional Certification (Skillogic)
- IIFIS AI Cyber Security Associate Certification
- EC-Council Certified Cybersecurity Technician (C|CT)
- CompTIA Security+
- Cisco Junior Cybersecurity Analyst
- AI Security & Governance (Securiti)
- Google IT Support (Coursera)
